

WHAT YOU NEED TO KNOW ABOUT THE

BOOSTER SHOT

WHO IS ELIGIBLE

BOOSTER SHOTS are now recommended for:

New Yorkers 12 years and older who received the **PFIZER** initial vaccine series at least 5 months ago. 12-17 year olds can only receive the Pfizer booster at this time.

New Yorkers 18 and older who received the **MODERNA** initial vaccine series at least 5 months ago or **JOHNSON & JOHNSON** vaccine at least 2 months ago.

Does the booster need to be the same brand as my vaccine

Your booster shot can be any of the 3 authorized vaccines, but it is recommended that you get either the Pfizer or Moderna booster shot.

What documents do I need to show to get a booster shot

You will need a document with your date of birth, such as a driver's license or IDNYC, and proof of vaccination such as a CDC vaccine card.

Where do I go to receive the booster shot

To find a vaccination site, go to nyc.gov/vaccinefinder (or scan the code at right). You can also call 877-VAX-4NYC for help finding a City-run site.
